

Achievements in the National Fellow Project on PGR Informatics 2021

1. PGR applications launched in 2021

PGR Map was launched for public use on 16 August 2021 by Honorable Minister for Agriculture Shri Narendra Singh Tomar.

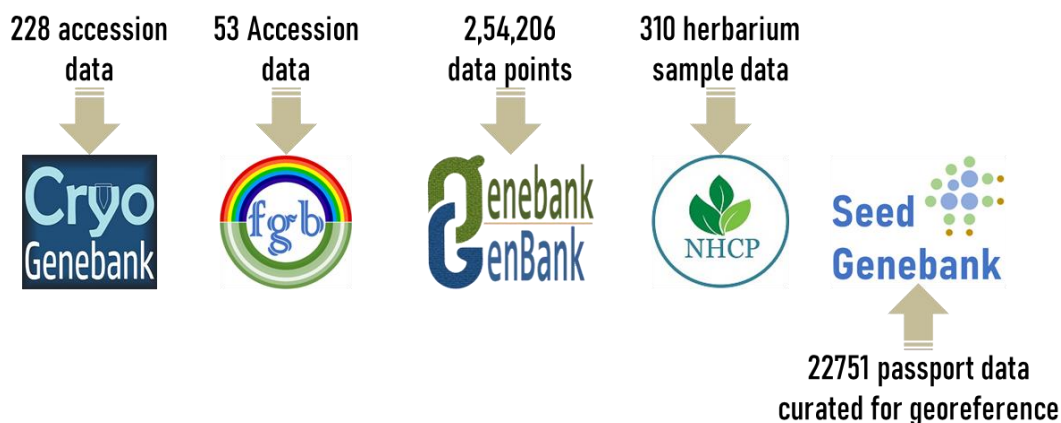

PGR Clim was launched on 2 August 2021 during the 45th NBPGR Foundation Day by Prof. Paul Gepts, University of California, Davis.

2. Maintenance and updating:

We maintained following 18 applications for uninterrupted functioning on in-house servers

1	PGR Portal	8	PGR Map	15	Gap Analysis
2	Seed Genebank	9	PGR Clim	16	IP PGR
3	<i>In vitro</i> Bank	10	CWR	17	Sesame Genomics
4	Cryo bank	11	PGR NHCP	18	Exotic Collections
5	Genebank To Genbank	12	PGR Characterization		
6	MTS Database	13	Germplasm Registration		
7	Field Genebank	14	GEX Dashboard		

Following updating activities done

Additionally, new reports/forms created for cryo genebank, AKMU dashboard, species details, change storage location; added email facility to fee receipt (GEX), photo gallery (website), publications (NHCP), etc.

3. New Initiatives:

- *Under testing* DNA bank database and application for **National Genomic Resource Repository** (<http://pgrinformatics.nbpgr.ernet.in/ngrr/>)
- *Under development* “**On Farm Conservation Database**”
- *Under development* “**Plant Quarantine Information System**”
- *Under development* “**Online Passport Information Requisition**”
